

Care360 Screening Module

Passport

The User Passport reflects employee compliance with company COVID-19 regulations, accessible by mobile and desktop. Single sign-on is encouraged to facilitate easy of use.

Employer Dashboard

Employee results and exposures are organized by worksite. Company admins can customize the automated notifications received by employees on their indirect exposure list. The data can be visualized and downloaded.

Indirect Exposure List

Manage					Add Location
Cont	Employee	Address	Location	Contact	Test Order
New York Office	Jay Pugh	4880 South Rd	Lawrence NY		
Distribution Center	Jean Chikara	1007 South Rd	Atlanta GA		
Production Office	Jean Chikara	4075 North Bridge Rd	Suite 4041 Alpharetta GA		
Durability Office	Jean Chikara	1000 Harvard Road	Atlanta GA		
Buildings Office	Christopher Swofford	Production Plaza	Atlanta GA 30341		

Anyone who has attended a shared worksite within 48 hours of an employee who has 1) reported symptoms on the daily screening questionnaire or 2) reported a positive test, will be notified of the potential exposure.

Daily Health Risk Assessment

The screenshot shows a 'Daily Screening' form with a progress bar indicating 'Step 3 of 3'. It includes a 'Risk Assessment' section with three questions, each with 'Yes' and 'No' radio button options. The questions are about physical contact with others, laboratory-confirmed diagnosis of COVID-19, and laboratory-confirmed diagnosis of COVID-19. At the bottom, there are 'Start Over' and 'Next' buttons.

Prior to working on-site, employees will complete the daily screening questionnaire. This form is automatically populated with questions about signs and symptoms, and is configurable for additional risk factors of interest.
